

# Inflatable Furniture

Give your brand the wow factor

Inflatable furniture is made of 2 layers, inside is TPU, outside is printing neoprene. Each design of furniture has a position for placing LED light, which provides enough light for the event site and also makes the furniture a focal point to drive your brand's visibility.

Comes with an LED light option

The Inflatable Ottoman is a great concept for both indoor and outdoor events to provide a practical solution to seating options and showcasing your brand in an impressive and attractive way.
