

# HOW TO REPAIR YOUR UMBRELLA

**What you will need:**  
Drill with Philips head attachment  
Screw driver - Philips head  
Spanner

**Step One:**  
Remove the bolt from the  
end long rib and set aside bolt.

**Step Two:**  
Open up umbrella.

**Step Three:**  
Remove the bolt from end of stretcher  
and set aside bolt.

**Step Four:**  
Remove bolt from rib end at the  
Crown of the umbrella (Top).  
You will need a ladder.

**Step Five:**  
Repeat steps 1-4,  
if multiple ribs are broken.  
Then insert new poles following  
the steps in reverse.

4, 3, 2, 1.
